

# How the Manufacturing Safety Alliance of BC can help you with Occupational First Aid

# Timeline – Phase 2

## Complete Q2-Q3 2024 (Sep 1 at the latest)

- Begin implementing your action plan
- Update all first aid supplies to meet the CSA Standards
- Start training workers on new first aid procedures
  - Tickets expiring July 2 to October 31 need to complete the new training
  - Level 2 will complete Intermediate training
  - Ticket expiring November 2027 are valid
- Develop a first aid training module covering what workers need to know
- Identify and begin conducting any site-specific training and orientation for first aid attendants (include considerations such as modified duties, medical aid, mental health, workplace stress, emergency response, environmental crisis responses)

# Timeline – Phase 3

## Complete by Nov 1, 2024

- ✓ Complete any site-specific training and orientation for first aid attendants
- ✓ Finalize training with workers
- ✓ Conduct a first aid drill with staff and first aid attendances including a debrief to determine what went well and what needs improvement

# Safety Advisors

- Will help identify what changes are required to current First Aid programs
- Template program and First Aid procedures with updated regulatory requirements
- Assist with tabletop exercises for First Aid Drills
- Assist with completion of the First Aid Risk Assessment
