

This document provides a list of typical limitations for common physical injuries.

Neck	Shoulder	Elbow/Forearm	Wrist/Hand
<ul> <li>Ensure</li> <li>The worker can self-pace and/or take micro breaks</li> <li>Limit</li> <li>Activities with arms above shoulder level, including reaching down</li> <li>Activities with lifting and carrying to light or medium loads</li> <li>Hanging weights</li> <li>Ladder climbing</li> <li>Avoid</li> <li>Lifting and carrying with arms above shoulder level</li> <li>Extremes of looking up, down, or over the shoulder, especially if sustained for more than a few seconds</li> </ul>	<ul> <li>Ensure</li> <li>The worker can self-pace and/or take micro breaks</li> <li>Limit <ul> <li>Climbing ladders</li> <li>Activities using arm above shoulder level, including reaching down</li> <li>Activities which require lifting and carrying to light or medium loads</li> </ul> </li> <li>Avoid <ul> <li>Holding the arm outstretched for periods especially while holding weights and applying force</li> <li>Lifting and carrying with arm above shoulder level</li> </ul> </li> </ul>	<ul> <li>Ensure</li> <li>The worker can self-pace and/or take micro breaks</li> <li>Limit</li> <li>Repetitive or sustained gripping, especially where high forces are required</li> <li>Repetitive elbow bending</li> <li>The total time spent keyboarding or driving</li> <li>The use of impact tools (including power tools and hammers)</li> <li>Avoid</li> <li>Hanging weights</li> <li>Forearm rotations</li> <li>Pressure on the elbow</li> </ul>	<ul> <li>Ensure</li> <li>The worker can self-pace and/or take micro breaks</li> <li>Limit</li> <li>Repetitive gripping, especially where high or sustained forces are needed</li> <li>Lifting and carrying to light or medium loads</li> <li>The total time keyboarding or driving</li> <li>Avoid</li> <li>Extreme postures of the wrist, especially with force</li> </ul>

Low Back	Knee	Ankle
<ul> <li>Ensure</li> <li>The worker can self-pace and/or take micro breaks</li> <li>The worker can change position between walking, standing, and sitting</li> <li>Umit</li> <li>Walking on uneven ground</li> <li>Lifting and carrying to light or medium loads, depending on frequency and postures</li> <li>Avoid</li> <li>Jarring</li> <li>Repetitive bending</li> <li>Long periods of static standing or sitting</li> <li>Extreme bending of the back</li> <li>Twisting of the back</li> </ul>	<ul> <li>Ensure</li> <li>The worker can self-pace and/ or take micro breaks</li> <li>The worker can occasionally elevate the knee</li> <li>The worker can frequently change position between standing, walking, and sitting</li> <li>Limit</li> <li>Walking on uneven ground</li> <li>Avoid</li> <li>Long periods of standing or walking</li> <li>Deep squatting, kneeling, or crouching</li> <li>Pivoting of the knee</li> <li>Participating in activities requiring bracing, balancing, or running</li> <li>Stair use or ladder climbing</li> </ul>	<ul> <li>Ensure</li> <li>The worker can occasionally elevate the ankle</li> <li>The worker can self-pace and/or take micro breaks</li> <li>Limit</li> <li>The use of stairs</li> <li>Avoid</li> <li>Long periods of standing or walking</li> <li>Walking on uneven ground</li> <li>Climbing ladders</li> <li>Deep squatting and crouching</li> <li>Activities requiring balancing, bracing, or running</li> </ul>

These typical physical limitations are guidelines to help develop an appropriate stay-at-work or return-to-work plan.

## Strength categories for handling loads

National Occupational Classification (NOC) is the nationally accepted reference on occupations in Canada and provides a standardized framework for definitions such as pulling, pushing, lifting and/ or moving objects during the work performed.

The NOC defines strength used in handling loads (e.g. pulling, pushing, lifting and/or moving objects during the work performed) as follows:

Limited: Work activities involve handling loads up to 5 kg

Light: Work activities involve handling loads of 5 kg but less than 10kg

Medium: Work activities involve handling loads between 10 and 20 kg

Heavy: Work activities involve handling loads more than 20 kg
